### PROFESSIONAL SUMMARY

---

Software Engineer with a focus on Frontend Engineering, specializing in building scalable, responsive, pixel-perfect, and user-friendly digital experiences using Next.js, React.js, TypeScript, and Tailwind CSS. Experienced in translating complex designs into lean, accessible, and performant interfaces, with additional hands-on exposure to backend services, cloud infrastructure, and fullstack project delivery. Eager to contribute to real-world products and grow through collaboration.

### SKILLS

---

**Languages::** Next.js | TypeScript | JavaScript(ES6+) | React.js | Tailwind CSS | HTML | CSS

**Tools:** Git | Github | Figma | Postman

**Cloud & DevOps:** AWS(EC2, Amplify, Cognito, S3, VPC, Lambda, DynamoDB, etc) | Terraform

**Backend & Database:** Node.js | Firebase | Supabase | MySQL | PostgreSQL

### WORK EXPERIENCE

---

#### Cecure Intelligence Limited | Engineering Intern

04/2025 - 09/2025

Participated in a multi-domain engineering internship, rotating across frontend development, design engineering, cloud engineering, and machine learning/backend services. Worked closely with senior engineers building client-facing products, gained hands-on exposure to industry tools, and learnt best practices across multiple disciplines.

- Built responsive, pixel-perfect UIs using React.js, TypeScript, and Tailwind CSS; shadowed the CecureStream(a live product) team, implementing screens and integrating APIs, with exposure to Jest for testing.
- Contributed to a KYC verification system using AWS Rekognition (facial recognition & liveness detection), Textract (OCR & document parsing), and Cognito (OAuth 2.0 authentication).
- Provisioned AWS cloud infrastructure using Terraform, including VPCs, subnets, EC2 instances, and Application Load Balancers; deployed serverless apps with Amplify.
- Created wireframes, high-fidelity prototypes, and UX research plans in Figma; applied accessibility, typography, and component-based design principles.
- Participated in agile stand-ups, codeathons, and code reviews; produced technical documentation, architecture diagrams, and pitch decks.

### PROJECTS

---

#### Interneefy- Internship Management System | Fullstack Developer

09/2025

A Fullstack Internship Management System designed to handle complex administrative workflows.

- Developed a multi-tenant web application with dashboards for company's admin, supervisors and interns
- Implemented features such as authenticated dashboards, user registration by admin, tasks assignment, progress tracking, and overall feedback at the end of internship period.
- Built responsive, accessible, and intuitive UI using Next.js, React.js, TypeScript, and Tailwind CSS.
- Developed backend services with Node.js, managed data with PostgreSQL, and integrated Prisma for ORM.

#### CampusCycle- Student Free-Cycling Platform | Fullstack Developer

04/2026

A student-focused platform connecting givers and receivers across university campuses, allowing students to post, browse, and claim free items.

- Designed and built a responsive, intuitive interface enabling students across multiple universities to list and discover available items.
- Developed the full application using TypeScript, Tailwind CSS, PHP, and MySQL; handling both the frontend UI and backend data management.
- Implemented item listings, browsing, and claim workflows with a PHP/MySQL backend.

## EDUCATION

---

### Lagos State University

Graduation - August, 2026

BSc Computer Science

- *Relevant modules: Software Engineering, Web and Internet Technology, Java, Algorithms and Data Structures, Systems Design and Security, Data Driven Computing, Databases, Computer Architecture and Networking*

### Altschool Africa

Graduation - October, 2025

Front End Engineering

- *Relevant modules: Front end Engineering, HTML, CSS, Javascript, TypeScript, ReactJS, NextJS, TailwindCSS, Web Accessibility*

## CERTIFICATES & HONORS

---

- Altschool Africa Frontend Engineering Certificate
- Upskill by Cardtonic 3.0 Winner
- ZurixI4G internship certificate - fullstack development track
